

## Air Conditioners

The heat got you down? Have to peel yourself out of the car because your vinyl seats have molded themselves to you? There is no need to put up with the summers any longer.

Bring your car into Mitey Automotive Center of Jefferson for an estimate on air conditioner repairs. With our staff of certified air-condition mechanics, they can get your air conditioner system up and running and drive away, one cool customer.

### TYPICAL SERVICE

- A thorough inspection of your car's HVAC system should be performed annually.
- A service technician checks pressures to test operation, refrigerant charge and outlet temperatures.
- If the system is found to be low on refrigerant, a leak test is performed to find the source of the leak.
- Refrigerant may be added if necessary to "top off" the system (some states do not allow "topping off").
- A technician may also check for evidence of refrigerant cross-contamination, which is the mixing of refrigerants.
- A/C service should also include a check of the compressor's drive belt and tension.
